About this document

This document describes our policy regarding eligibility for domain names in the TLD.

Purpose

The purpose of this policy is to describe the eligibility requirements for registering a domain name in the TLD.

Mission and purpose of the TLD

The term, شبكة, meaning 'web' in Arabic is currently used in the context of describing the 'Internet' among Arabic literate Internet users, and as such the use of this generic term as a TLD does not serve to target a specific industry or product segment.

The mission and purpose of the TLD is to promote innovation and growth in the Arabic literate Internet community by creating a globally recognized but regionally significant namespace in the Arabic script, dedicated to the specific needs of the community and thereby serving to eliminate previous barriers to accessibility while building on the successful and cooperative atmosphere established within the Arabic literate Internet community.

Given its generic appeal, the TLD will operate with no eligibility restrictions and will attract registrants from both business and consumer segments. The TLD will be positioned as the TLD of choice for those within the Arabic literate Internet community.

The TLD will address the specific needs of the Arabic literate Internet community by granting registrants the opportunity to secure relevant and intuitive domain names in their native script.

Eligibility requirements

To support the mission and purpose of the TLD, registering and renewing domain names in the TLD is open to any interested parties.

There will be no prerequisite for an Applicant to provide or demonstrate eligibility when applying for a domain name in the TLD.

Domain names in the TLD are subject to our policies which can be found in the policy section at the following link www.dotshabaka.com.
